GENERAL INFORMATION

The following reports, covering results of laboratory tests and other investigations conducted at the National Bureau of Standards, contain technical information on the engineering properties of building materials, structural elements, and equipment used in house construction.

They may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C. at prices indicated. The prices quoted are for delivery to addresses in the United States and its territories and possessions and in certain foreign countries which extend the franking privilege. In the case of all other countries, one-third the cost of the publication should be added to cover postage.

If you wish to receive the reports immediately upon their release, a deposit of \$5.00 may be made with the Superintendent of Documents against which their cost will be charged until this amount is exhausted. If 100 copies or more are ordered at one time, a discount of 25% will be allowed.

If you desire to be notified when new reports are issued, you may advise the Superintendent of Documents to that effect and notices will be sent to you without charge.

Circular C24 and supplements, the complete list of the Bureau's publications (1901-1936), is sold by the Superintendent of Documents for 55 cents. Announcement of new publications is made each month in the Technical News Bulletin which is obtainable by subscription at 50 cents per year.

BUILDING MATERIALS AND STRUCTURES REPORTS

Building Practice and Specifications Section

<u>Title</u>	<u>Series</u>	<u>Price</u>
Research on Building Materials and Structures for use in Low-Cost Housing	BMS 1	10¢
Methods of Determining the Structural Properties of Low-Cost House Constructions	BMS 2	10¢
Suitability of Fiber Insulating Lath as a Plaster Base . . .	BMS 3	10¢
Accelerated Aging of Fiber Building Boards	BMS 4	10¢
Structural Properties of Six Masonry Wall Constructions . .	BMS 5	15¢
Survey of Roofing Materials in the Southeastern States . . .	BMS 6	15¢
Water Permeability of Masonry Walls	BMS 7	10¢
Methods of Investigation of Surface Treatment for Corrosion Protection of Steel	BMS 8	10¢
Structural Properties of the Insulated Steel Construction Company's "Frameless-Steel" Constructions for Walls, Partitions, Floors, and Roofs	BMS 9	10¢
Structural Properties of One of the "Keystone Beam Steel Floor" Constructions Sponsored by the H.H.Robertson Co.	BMS 10	10¢
Structural Properties of the Curren Fabrihome Corporation's "Fabrihome" Constructions for Walls and Partitions . .	BMS 11	10¢
Structural Properties of "Steelox" Constructions for Walls, Partitions, Floors, and Roofs Sponsored by Steel Buildings, Inc.	BMS 12	15¢
Properties of Some Fiber Building Boards of Current Manufacture	BMS 13	10¢
Indentation and Recovery of Low-Cost Floor Coverings	BMS 14	10¢
Structural Properties of "Wheeling Long-Span Steel Floor" Construction Sponsored by the Wheeling Corrugating Co.	BMS 15	10¢
Structural Properties of a "Tilecrete" Floor Construction Sponsored by Tilecrete Floors, Inc.	BMS 16	10¢
Sound Insulation of Wall and Floor Constructions	BMS 17	10¢
